1. Unicom operates a fair use policy for its Unlimited Broadband and Fibre Broadband packages. You will incur no additional charge or suspension of service as a consequence of exceeding any usage threshold. If Unicom believe that your use of the Service is adversely affecting the network (or any part of it) or other customers, then Unicom may moderately regulate your usage. For customers on Essential Broadband this includes a 20GB usage limit, for usage above this limit a charge of £2.00 per 2GB applies, no charge will be applied in the first two months of supply for over usage.
2. Speeds based on a minimum of 10% of users on the network achieving these speeds. The actual speed you will receive is subject to line distance from the exchange, or principal connection point for fibre connections, and line quality. Speeds vary significantly by location. External factors e.g. internet congestion and premises wiring can also significantly affect speed. Fibre is subject to exchange availability.
3. If you terminate your contract with Unicom and you have taken a router which is not returned within 14 days of termination at your expense, in good condition and suitable packaging, you will be charged £50 plus VAT.

Fluctuation in Broadband line speed is expected to occur within the first 10 days of service whilst your line speed automatically adjusts to the maximum speed it can reliably support. All prices plus VAT which is charged at the applicable rate. Broadband rental charged monthly in advance and is non-refundable.
