Out of Contract Rates (standard variable rates)

If your fixed term contract with Unicom has expired but we're still supplying your essential services, you'll be charged Out of Contract Rates. Electricity and gas prices are subject to market conditions and fluctuate on an hourly basis, creating a high level of uncertainty. This uncertainty is reflected in higher pricing in comparison to fixed contracts, to cover spikes in power purchases.

If you're currently being charged Out of Contract Rates, please contact our Customer Service Team on 0161 946 4444 to discuss your options.
